Haus und Elektronik Technical Journal for Trade, Handcraft, Architects and Planners

HausundElektronik

Technical Journal for Trade, Handcraft, Architects and Planners

Haus und Elektronik is a trade journal for electrical engineering and building technology that appears 4 times a year and is aimed at trade and craftsmen, architects, planners and manufacturers. It provides information on the latest products from all areas of modern building technology, from aerial systems, electrical installations and security technology to photovoltaics and all areas of modern energy technology, in the form of short reports or detailed technical articles.

Issue 2 also contains an extensive special section on all the topics covered in Haus und Elektronik. It contains company addresses, a detailed product section and representatives of foreign manufacturers. Free inclusion in these directories is possible at any time. This issue is also available at the Light & Building trade press stand.

Content

Haus und Elektronik covers the following subjects regularly:

- building engineering and management
- photovoltaic, solar power
- CCTV
- domestic networking
- Home and building automation
- Access control
- electrical installation
- Home communication
- safety engineering
- network engineering
- Satellite and cable TV
- KNX

- lighting technology
- measurement engineering
- software
- electric power supply, monitoring, management

Readers

Haus und Elektronik is sent free of charge to qualified readers working in the following areas:

- Electrical handcraft
- Planning and engineering office for electro wholesale and retail
- Installers for antenna arrays and safety devices
- Special enterprise for video technology and electroacoustics

The reader's areas of responsibility are:

- Electrical engineers
- Electricians
- Planner in engineer's offices and in the industry
- Architects
- Buyers in wholesale and retail as well as in the handcraft

1/4 horizontal 210 x 84 mm

Specials

Cover Picture

Your press release/article will be published as a cover story. You supply a finished cover picture. Optionally, we can support you with the design.

Job Advert

We remit 50% of the advertising price for job advertisements.

Company Portrait

We will design a company portrait in consultation with you using the image and text material you provide. Please provide us with relevant information, such as the color values of your corporate colors or your corporate font.

Additional Flyer, etc.

Other advertising formats are also possible on request. Talk to us!

Data delivery/placement etc.

For adverts in the bleed, 3 mm bleed allowance must be added to the edges! Please create trim marks to ensure correct positioning.

Image data requires a resolution of at least 300 dpi in the final format.

Important information (text fields) should be placed at a minimum distance of 5 mm from the edge of the advert.

Provide your data in the CMYK colour space and please do not use any special colours. Please use the FOGRA 39 colour profile when creating data – if you use other colour profiles, especially for data created in the RGB colour space, colour deviations may occur during printing.

If you use a light-coloured font on a dark background, please set this to „omit“ and not to „overprint“, as otherwise display errors may occur.

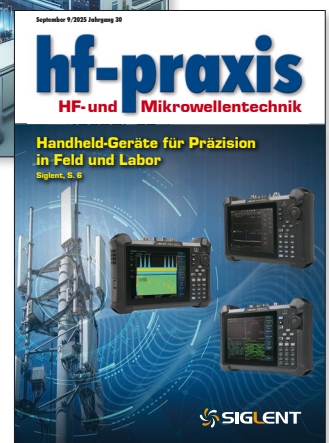

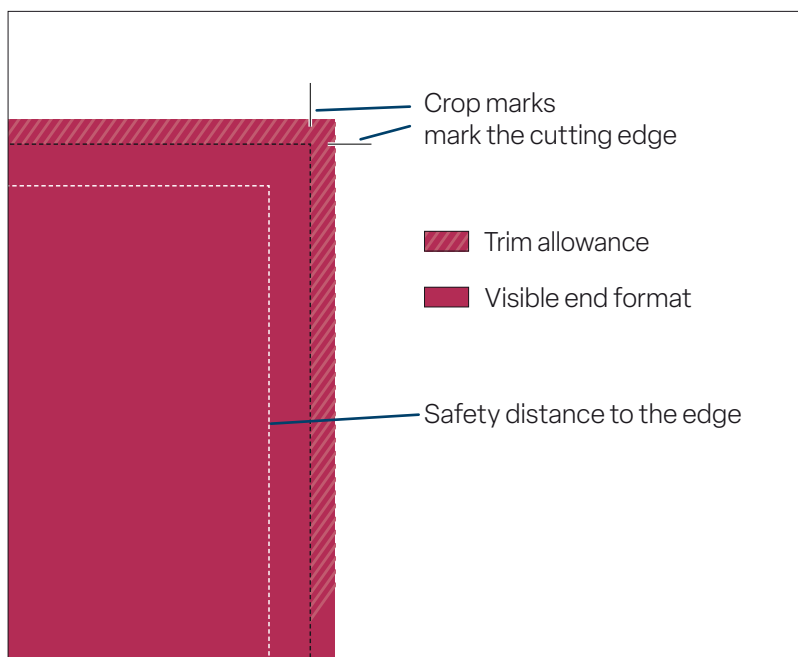

Please transmit advert data as PDF-X1a files.

(PDF-X1 is a PDF standard with automatic transparency flattening).

The client is solely liable for the technical correctness of the advertisement!

We regularly send proofs of company portraits, and on request also of adverts or press articles. If we do not receive any corrections or feedback by the deadline set, approval is deemed to have been granted!

We generally place adverts in the appropriate theme section. Please let us know if you would like your advert to be placed in a particular section, on the right or left-hand page or in a particular part of the magazine. We will be happy to take these requests into account as far as this is technically possible.

If you are interested, please contact us for more information or sample journals!
