MEDIADATEN 2027

meditronic-journal

Technical Journal for Medical Engineering

meditronic-journal is a technical magazine covering the medical device market. The magazine presents new products as well as trends and new technologies through in-depth articles, technical features and news updates.

Issue 5 will include a free Buyer's Guide consisting of several alphabetical listings of products and suppliers, local representatives and company contact information. We will be presenting this issue also at MEDICA/ Compamed and productronica.

front cover picture is used with the kind permission of SEPA Europe GmbH

Content

meditronic-journal regularly covers the following topics:

- Electrical and electronic components
- Image Processing, Displays
- Assemblies and Modules
- Micro- and Nanotechnology
- Computers and Accessories
- Measurement and Measurement Instruments
- Quality Assurance
- Device Communication
- Materials, Raw Materials, semi-finished products
- Laboratory Equipment
- Labelling and Packaging
- Software
- Services
- Mechanical Components
- Enclosures
- Power Supply

Readers

meditronic-journal is sent free of charge to qualified readers who work in the following fields:

- Electronic Components and assemblies
- Measurement Technology
- Production/Assembly
- Fine Mechanics
- Metal and plastic machining
- Services
- Packaging machines and materials
- Research institutes and universities
- Distribution

The reader's areas of responsibility are:

- Development
- Research
- Production
- Service
- Purchase
- Quality assurance
- Education and Training
- Distribution

meditronic-journal is not directed to end users.

1/4 horizontal 210 x 84 mm

Specials

Cover Picture	Your press release/article will be published as a cover story. You supply a finished cover picture. Optionally, we can support you with the design.
Job Advert	We remit 50% of the advertising price for job advertisements.
Company Portrait	We will design a company portrait in consultation with you using the image and text material you provide. Please provide us with relevant information, such as the color values of your corporate colors or your corporate font.
Additional Flyer, etc.	Other advertising formats are also possible on request. Talk to us!

Data delivery/placement etc.

For adverts in the bleed, 3 mm bleed allowance must be added to the edges! Please create trim marks to ensure correct positioning.

Image data requires a resolution of at least 300 dpi in the final format.

Important information (text fields) should be placed at a minimum distance of 5 mm from the edge of the advert.

Provide your data in the CMYK colour space and please do not use any special colours. Please use the FOGRA 39 colour profile when creating data - if you use other colour profiles, especially for data created in the RGB colour space, colour deviations may occur during printing.

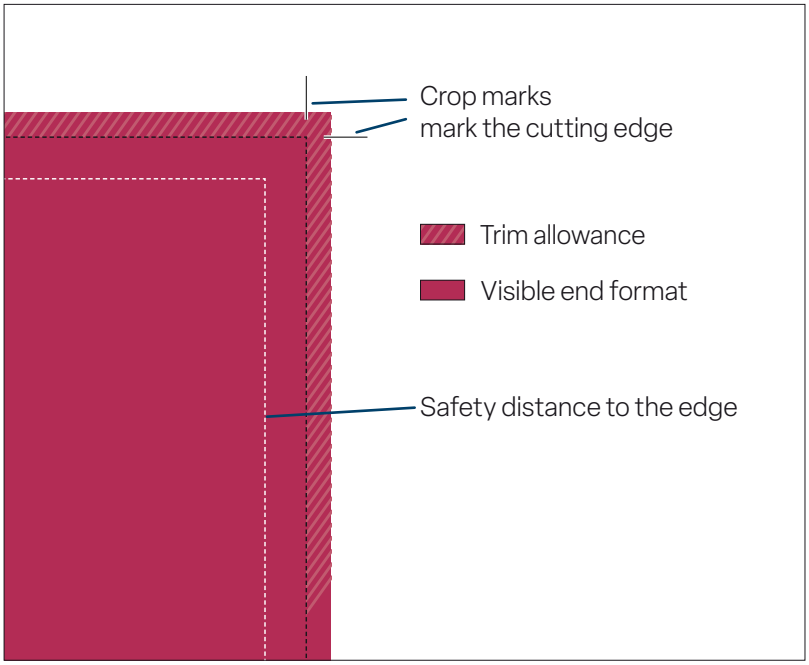

If you use a light-coloured font on a dark background, please set this to „omit“ and not to „overprint“, as otherwise display errors may occur.

Please transmit advert data as PDF-X1a files.
(PDF-X1 is a PDF standard with automatic transparency flattening).

The client is solely liable for the technical correctness of the advertisement!

We regularily send proofs of company portraits, and on request also of adverts or press articles. If we do not receive any corrections or feedback by the deadline set, approval is deemed to have been granted!

We generally place adverts in the appropriate theme section. Please let us know if you would like your advert to be placed in a particular section, on the right or left-hand page or in a particular part of the magazine. We will be happy to take these requests into account as far as this is technically possible.

If you are interested, please contact us for more information or sample journals!
